

What Can I Do in the Construction Area?

I can share toys and materials.

I can use tools and my hands to take apart, assemble and construct.

I can keep trying when I am faced with challenges.

I can compare models that have been made by colour, shape and size.

I can make imaginative 'small worlds' from blocks and construction.

I can develop stories using models I have made and other equipment.

I can talk about what I would like to make and what materials I will need.
